

DDRC's Involvement as a Community Partner

DDRC's involvement in Porchlight, A Family Justice Center, the Clothesline Project and JeffCo Women's Day is an outgrowth of years of our collaborative efforts on training and awareness around mandatory reporting of incidents of mistreatment involving seniors and people with I/DD.

DDRC is a community partner along with over 75 other partners that will provide coordinated services for victims of violence through Porchlight, A Family Justice Center. Community partners include non-profit service providers, medical providers, governmental agencies, law enforcement, mental health providers, schools, legal services, the faith community leaders, civic leaders, and more.

DDRC has been involved in the development of Porchlight and will continue to be involved once Porchlight opens by providing support and assistance to those served by both Porchlight and DDRC.
